

# COLD FOOD HOLDERS THERMOELECTRIC CHILLERS

Model RCS

Date:

Project:

Quantity:

Item Number:

## Bid Description

The innovative EZ-Cream™ chilled cream dispenser features thermoelectric technology to hold cream and other dairy products below 41° F (5° C) indefinitely. Constructed of a black polycarbonate/ABS blend with a matte finish to resist fingerprints. The removable anodized aluminum serving vessel has a 2 quart (1.9 L) capacity.

The EZ-Cream™ dispenser incorporates advanced solid-state cooling technology to draw only 1 Amp and provide quiet operation. It features a lockable lid to help prevent tampering and one-touch operation. The removable serving vessel and drip tray make daily cleaning a breeze.

## Standard Features

Thermoelectric operation assures quiet operation and maximum energy efficiency

Includes a removable anodized aluminum serving vessel

Locking lid with key for tamper-resistant operation

Holds indefinitely below 41° F (5° C) — to keep your product fresh and cold

Serving vessel with 2 quart (1.9 L) capacity

12 foot (3.7m) power cord

NSF Listed for Standard 20

**RCS 86850**

ALSO AVAILABLE  
FOR EXPORT

**Warranty**

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, see our web site or contact us.
